

## Church and Charity Safety Training and Development

*These programs meet federal counterterrorism training requirements*

InDev Tactical training programs help staff and volunteers understand and deal with issues of safety and security, crisis planning and deterrence. The training offers simple, effective methods for identifying and mitigating violence and terrorism.

InDev's training approach focuses on efficient and effective knowledge transfer and subject retention. The training methodology uses both interactive classroom/conference room sessions and practical field exercises to achieve maximum results. These training programs can be customized and presented in a format that best fits your needs and schedule.

Our training is conducted by subject matter experts with the skills and experience needed to create realistic presentations and lively training sessions. These experts are able to effectively answer questions and address issues using real world examples and knowledge.

InDev catalog of training for churches and charitable organizations include:

- Advanced Security, Shooting, & Incident Safety Training (ASSIST)<sup>®</sup>
- Counterterrorism, Homeland Security, and Deterrence
- Worship Service Safety

InDev Tactical provides counterterrorism, safety, and security training, risk management, consulting, security guard and executive/close protection (bodyguard) services. The InDev team has conducted security, counterterrorism, and force protection assignments in Afghanistan, Iraq, and South Sudan; and provided post conflict/disaster reconstruction, development, and consulting services in 37 countries. In the US, InDev provides security and consulting services across the southeast. InDev team members are subject matter experts with extensive experience working with churches and charitable organizations.

Jim Willis, InDev's training team leader, is an ATAB *Certified Master Anti-Terrorism Specialist* and an ABCHS *Certified Level-I Homeland Security Expert*. InDev Trainers are qualified lethal and nonlethal weapons experts, force protection specialists, and security professionals.
